Long disclosure statement

| | |
|---|---|
| Effective sample size after weighting applied | 1,004 |
| Margin of error associated with effective sample size | ±3% |
| Variables used in weighting | Age, gender, state or territory based on Australian Bureau of Statistics “National, state and territory population” data |
| Gender identity categorisation | Those who answered the gender identity question as “Non-binary”, “I use a different term”, or “Prefer not to answer” had their responses included with females for the purpose of reporting, due to constraints from weighting data availability |
| Weighting method used | Raking method |
| Full question text, responses categories and randomisation | See below |
| Source of online sample | Dynata’s online panel |
| Positioning of voting intention questions in questionnaire | Immediately after demographics, before policy questions |
| How were undecided voters handled? | Respondents who answered “Don’t know / Not sure” for voting intention were then asked a leaning question; these leanings are included in voting intention crosstabs |
| Method of calculating 2PP | NA |
| Voting intention categorisation | Voting crosstabs show voting intentions for the House of Representatives “Coalition” includes separate responses for Liberal and National. “Other” refers to Independent/Other, and minor parties in cases where they were included in the voting intention but represent too small a sample to be reported separately in the crosstabs |
| Location results | Results are shown only for larger states |
